Friday 25th September

Homework – Year 1

Art

This week in art we have learnt the 5 basic elements of shape that we can use in our drawing. They are dot, circle, straight lines, curved lines or angled lines. Create your own outline of a favourite animal and then fill it with shapes, just like the turtle below.

Science

We would like you to keep a food diary for four days for you and a pet if you have one at home. Please bring it in to share with your friends on Wednesday 30th September.

Our focus question is: Do all animals and people eat the same food?

Please use the attached sheet to record on.
